Learning Report Summary

1. Yes I got the program to run with no errors and the correct results.
2. I spent about 3 days on this assignment.
3. I found the assignment mildly challenging.
4. I wrote the program myself with the use of Google and documentation.
5. I used Google, Stack Overflow, and the documentation to help me debug and troubleshoot my issues. The documentation helped me with syntax issues, and Google and Stack Overflow helped me with getting my desired outcome based on other peoples similar programs and implementing them into my solution in some way.
6. I learned how to use abstract classes and functions in Python, and more about object oriented programming.
7. None.
